📄 CAREER OBJECTIVE

As an Enthusiastic Full Stack JavaScript Developer, I bring a strong foundation in web development and a passion for learning. Proficient in both front-end and back-end technologies, I have experience with JavaScript, React.js, Git, Node.js, and MongoDB. Eager to contribute to dynamic projects and collaborate with teams to create innovative web applications.

🎓 Education

- I am currently pursuing my Bachelor of Technology degree in Computer Science and Engineering Branch from Birla Institute Of Applied Sciences, Bhimtal with an aggregate percentage of **80%** which is expected to be completed in 2024.
- I completed my intermediate from Lucknow Public School with an aggregate of **78%** having PCM as my core subject in the year 2020
- I completed my High School at Lucknow Public School with an aggregate of **80%** in the year 2018.

🧠 Skills

C++ | HTML | CSS | JavaScript | GIT | ReactJs | Redux Toolkit | Bootstrap | Tailwind | NodeJs | NPM
ExpressJs | MongoDB | MySQL | NextJs

📁 Projects

Ecommerce Website, NextJs Based Website 📄

Sep 2023 – present

- This project employs advanced tech for user-friendly experiences, featuring **React18**, **Next13**, and **Tailwind CSS** for stylish front-end design.
- In this, I used Technologies such as NextJs for handling both **frontend pages and backend routes**, **MongoDB** for Databases, **Prisma** for Query Building with Database, and **NextAuth.Js** for secure authentication.
- The project will be hosted on a **Vercel server** for high uptime and integrate **Stripe** for easy payments.

BIAS Hostel Complaint System, Group Project 📄

Jan 2023 – May 2023

- We have built a **web application** for our **college hostel's complaints** In this application, users can submit complaints about issues that students are experiencing within the hostel and mess facilities.
- I contributed to the **entire web application**(frontend and backend).

PROJECT MANAGEMENT, GraphQL based Project 📄

Jan 2023 – Jan 2023

- Used to track all the projects working on, with all details of the client along with their description and their contacts in one place.
- Technologies used are **React.js**, **GraphQL**, and **Apollo Client**.

Personal Portfolio, ReactJs Project 📄

Nov 2022 – Nov 2022

- To showcase my skills as a Web Developer through a Website.
- Used **ReactJs** as an key library for making useful component.

📜 Certificates

- Web Development Bootcamp by Dr. Angela Yu 📄
- FreeCodeCamp's Responsive Web Design 📄

🧩 Course Work

- Database Management System
- Object Oriented Programming Language

🏆 EXTRA CURRICULAR ACHIEVEMENTS

GeeksforGeeks 📄

On this platform, I solved more than **150+ questions** in **C++ language**. This helped me improve my problem-solving skills and achieved a **50+ days streak** of solving POTD (Problem Of The Day) on this platform.

🧩 DECLARATION

I hereby declare that the above mentioned particulars are true to the best of my knowledge and belief.
